land
healthy
when
ecological
processes
are
stopped by
fences?

Is the
land
healthy
when
broken into
thousands
of parcels?

Is the
land
healthy
when left
to self-
organize?

Is the
land
healthy
when
privatized?

land
healthy
when
75%
of the
insects are
missing?

Is the
land
healthy
when
bees die
from
coming
in contact
with it?

**Is the
land
healthy
when
tilled
and
planted
with
mono-crops?**
